Important New JPS Password Requirements

- Passwords must now be 12 characters long.
- Passwords must have one upper case letter, one lower case letter, and one number.
- Passwords can include spaces and other special characters. Passphrases are encouraged!

Click on the "eye" to see your password as you type. This makes it easy to confirm your password as you type it and is the same in both boxes.

Slide 9

Passwords must meet all conditions and they must match before you can continue!

- Passwords must now be 12 characters long.
- Passwords must have one upper case letter, one lower case letter, and one number.
- Passwords can include spaces and other special characters. Passphrases are encouraged!

Click on the "eye" to see your password as you type. This makes it easy to confirm your password as you type it and is the same in both boxes.

Select the Verify New Password text box to enter the new password again.

Slide 10

Users will not be able to click on the Next button until the password meets all of the rules and is correct in both boxes.

Click the **Next** button

Slide 11

Click inside each response box and enter your answers to any three questions. Only three questions are required!

After successfully resetting the password, each user must select any three of the challenge questions from the list of question options.

These questions will be used in the event of a forgotten password and can also be used as a multi-factor authentication option.
