

**BOARD INSPECTION AND ACCEPTANCE OF RENOVATIONS OR NEW FACILITIES**

It shall be the policy of the Board that the acceptance of new construction, be it renovations or entirely new facilities, be withheld until all details are complete as verified by a physical walk through inspection of the facility by the superintendent or his designated professional staff. Such construction must be certified as complete and final with final certificate of occupancy by the architects and the superintendent. Only after such certificate of occupancy has been secured may the request for acceptance be presented to the Board for approval.
